# NOTHING SELLS LIKE PRINT

Grasped in quivering hands, it's *IMPOSSIBLE* not to look.  
The power of print draws *you in*. That's why they call it a *hook*.

Maybe no silver bullet. But a *golden ticket*, you could say.  
If Charlie opened merely an email, would he feel the same way?

A notable presence other marketing lacks. It stimulates senses.  
Visual, tangible and enchanting. Tactile marketing commences.

Fingertips, packed with sensors, busy transmitting the *feels*.  
We're *hardwired* to react with emotion. Print evokes, print appeals.

It's our pleasure to present this playbook. Ideas in each category.  
Three top picks, curated carefully: Favourite, fab, and fancy.

With *powerful print* under your spell, waiting for the right hands.  
An essential part of your mix, trust us, *more clients* you shall land.

We're here to *grow your business*. Let's part on a marketing hint.  
Of course, digital marketing works. *But nothing sells like print*.

# STATIONERY

Many folk overlook the power of a simple posted letter. We all get less mail through our letterbox than we used to. And we all get more junk through our email inbox.

Yet letters are an effective direct mail piece. Either laser or inkjet print onto letterheads yourself. Or we can pre-print words for you.

It won't go unnoticed. 70%\* of consumers say receiving mail makes them feel more valued.

# THE BETTER CHOICE

## BIODEGRADABLE LAMINATED PRINT

Single-use plastics are no stranger to the eco-conscious. And we're always asking how we can do more to help. To be better.

So over three years ago we switched all of our matt and gloss laminated print to a new biodegradable laminate. That's every laminated business card, flyer, folder, booklet cover, appointment card and postcard.

It looks like regular lamination and feels lovely. When the print reaches the end of its useful life, it composts. Within two years it's gone. Without leaving any contaminants in the soil.

# HIT THEM RIGHT IN THE FEELS

Your website needs to look impressive. It has to be clear and consistent. You know that already. But big brands don't just focus everything online. They combine their online presence with offline marketing.

Why? Print and direct mail are proven to build trust. It's perceived to be more credible. It plays with emotions. Appeals to multiple senses. There's nothing like it. And you can exploit that power, very cost-effectively.

Eat, sleep, sell, repeat. Studies have shown it's better to send five things to 1,000 people than one thing to 5,000. Repetition is important. Repetition is important. (Sorry). But so is making your marketing engaging and exciting.

In the end, it's down to the quality of design. The power of creative. The potency of the message. Let us help. We ain't just a printer. We're here to help you with ideas to grow your business. It's what we do.

# STICKERS

Are you “Sticker happy”? Well, you should be! Otherwise, you’re not getting maximum exposure to your brand.

Get stickering at every opportunity you can - on the side of every box that leaves your warehouse, on the front of every envelope that leaves your office and on the forehead of every customer that leaves your store. (We’ve taken that too far, haven’t we?)

We even have stickers for walls, windows, and walkways. Boats, buses and Bugatti Veyrons (or more likely, Peugeot Boxers).
