HIT 'EM RIGHT IN THE FEELS WITH **PRINT**

Your website needs to look impressive. It has to be clear and consistent. But you know that already.

Big brands don't just focus everything online. They combine their online presence with print marketing.

Why? Print and is proven to build trust, it's perceived to be more credible and plays with emotions.

And it appeals to multiple senses – touch and sight. There's nothing like it. And you can exploit that power, very cost-effectively.

Sometimes too much choice is daunting. That's why this guide features our top selling products. With a few curious and quirky options sprinkled in, to titillate and add allure.

The ceremony that starts something special

Isn't it weird? Most meetings start with the same ceremony. We present our business cards and we accept them from others. And that's the start of the relationship.

Everyone wants their relationships to go well. You might as well stack the

cards in your favour. And make them look exceptional. We know just the way.

Order cards frequently? Have more than ten employees? Let's setup a private online store for you. It's fast and it's easy. Just ask for a demo.

When did you last write me a letter?

Many folk overlook the power of a simple posted letter. We all get less mail through our letterbox than we used to. And we all get more junk through our email inbox.

Yet letters are an effective direct mail piece. Either laser or inkjet print your message onto pre-printed letterheads yourself. Easy as that!

We don't only offer printing for

letterheads and compliment slips. We can even personalise notepads, envelopes & postcards so that you can stand out from the rest.

ENVELOPES

Get your message working hard, even before your recipient opens your letter.

Our overprinted envelopes are the first stage in the sales process. Create a 'hook' on the outside to draw your reader inside. If you're worried they'll throw the letter away without opening it, then you need to put your effort into making that hook irresistible.

INVOICE BOOKS & PADS

You might say invoices books and pads are a little 'old school', but we still love them and they still have a purpose in many businesses.

Perfect for when you need more than one copy of an order form or invoice. We have a wide range of duplicate & triplicate invoice books available as individual pads or sets all with various finishing options.

Don't see what you need here or want a higher quantity, just ask us about our other invoice book options and we'll help you find the right fit.

Future Energy Supply – Options For The Future

4 December 2012 - 1.00 to 5.00 pm

Just how do you get their full attention?

Do you write proposals, send quotes or make estimates? Truth is, yours is probably not the only one a client gets.

So how do you increase the chances of winning the work? Following-up is really important of course. Quite often the fastest quote wins the day.

But there are other techniques. Send your proposal by email, but also post a hard copy. Stick it inside a folder. Why? It shows you're serious and credible.

There's some psychology going on too. The act of opening the envelope and unfolding is a bit of theatre.

It's not some tiny flyer. It's a huge double page spread of 'you'. And they're holding you with both hands. And you're blocking out other distractions. And now you have their full attention. Close the deal.

Leaflets, invites, rack cards, flyers, vouchers, something for every purpose

You say pamphlet, we say leaflet. You call it a postcard, we call it a rack card. They're all just rectangles and squares. So we've organised them together, by size.

Whether you want to hand out things at an event, post them through mailboxes or create stunning direct mail pieces, we've

got all the options covered. From thin paper to ultra thick board.

Our most popular sizes and paper types are listed on the next few pages, starting from lightest to thickest. These are the best sellers. If you want a paper or size not listed, please just ask.

Brochures, price lists, & menus in a range of different folds & creases

It makes sense to fold larger leaflets down to smaller sizes. Breaking information down into smaller pages – or panels – makes it easier to digest.

We've put together our most popular folding styles, along with our bestselling paper types.

But. And it's a big but. There are far too many sizes and styles to list on the next few pages.

If you don't see the shape, size or fold style you'd like, please let us know and we'll have a looky for you.

FOLDED LEAFLETS & CREASED CARDS

Half Fold or Creased

Simplest and most popular. Folded in half, either from the short edge or the long edge.

Roll Fold

Makes three panels or more, which are rolled into one another. Available on A4 and bigger leaflets.

Zig-Zag Fold

A bit like a concertina. Have three or more folds on pieces A4 or larger really good for odd sizes.

Cross Fold

Folded in half, then half again, to make the leaflet a quarter its original size.

FOLDED LEAFLETS

Our most popular papers and sizes and starting prices are listed below.

Please don't feel limited to these sizes, folds or quantities just ask us about our other options.

No matter how weird the fold may be we promise we won't judge you.

BOOKS

Build your own book

Whether you need a book for writing, reading, learning or something else entirely, we have a solution for you.

We have 3 different ways to print your book, Offset, High Speed Inkjet or Digital.

Offset printing is by far the best quality print and is best for when you are printing a large number of books as then it becomes more cost-effective. It is best for printing full-colour brochures and catalogues that showcases your business.

Digital printing your book is commonly used when printing a lower number

of books. The quality is great and digital has the most diverse range of stock options.

High Speed Inkjet printing is perfect for workbooks, educational resources, diaries, notebooks, community newsletters, and much more. Why? Price! Your book can be printed in glorious full colour for the price of black and white.

With our range of printing techniques, we can find the best solution to fit your needs and your budget, so let's chat.

A STEP BY STEP GUIDE

1 Pick your paper

Depending on how you choose to print your book or booklet here are few things to keep in mind when choosing your stock.

Choosing an uncoated paper is ideal for when your writing notes in the book. Coated paper is recommended for brochures and catalogues as it gives that luxurious feel.

Here are our most popular papers:

100gsm Uncoated O D H

115gsm Coated H

130gsm Gloss Paper O D

130gsm Satin Paper O D

Key:

O Offset

D Digital

H High Speed Inkjet

2 Pick your cover

Some people are happy with all pages in the booklet being the same paper. However, most opt to put a thicker cover on the outside. We have a range of papers and card to choose from for your cover.

Listed below are our most popular:

235gsm Coated front,

Uncoated reverse Board

300gsm Satin Art Board

300gsm Uncoated Board

Spice up your cover with matt or gloss laminate, or add Spot UV gloss over matt laminate to make the cover pop!

3 Pick your binding

Perfect Bound

Pages and cover are glued together at the spine with a strong, flexible thermal glue. This binding is most commonly used for books.

Saddle Stitch

Saddle stitching refers to folded sheets which are stapled on the fold edge. Often used for booklets and brochures as the book can lay flat.

Wiro Bound

Used mostly in a commercial sense, wiro binding allows documents to lay flat when opened and will accommodate various paper thickness, inserts, tab dividers and cover options.

EXHIBITION

Exhibiting has never been more affordable

Gone are the days of lugging around heavy cases. Goodbye to magnetic bars and crying-trying to hang graphics precisely. Say farewell to posters which don't last a second show.

There's many reasons people are choosing fabric displays. They're lightweight – each comes with a carrycase. They're compact – fit them in the boot of a car. They're robust – use them time and time again.

They look great – a single continuous graphic in eye-popping High-definition. They're great value – they cost much less than you'd think.

Each display is a frame, which clips together. Then stretch a 'duvet' graphic over. Up in minutes, down in half that time.

HOW OUR FABRIC DISPLAYS WORK

Fabric Displays are made up of two main components - a strong, lightweight, tubular aluminium frame and a printed fabric cover.

The 'Stretch' fabric cover is printed and designed to fit snugly over the frame, and is secured at one edge with a zip fastening.

These 'next generation' displays deliver impact and completely eliminate the problem of visible join lines on larger displays.

Fabric display frames utilise a simple 'click together' mechanism

Each part is numbered for easy identification and quick assembly

Stretch the fabric graphic over the frame and zip up

All fabric display frames come with a carry bag for easy transportation and storage

Wind Blade or Tear Drop Flags

Great for indoors & outdoors. Get the whole flag package at a steal, it includes the flag, pole, base, and even a handy carry bag! There a range of bases, to select from for your needs.
