

The most
SPLENDIFEROUS
SPACES
of them all

YOU'RE WELCOME

They say *a product of your environment* are we.
Right now, could surroundings *matter more*?

We've grown *acutely aware*, we must take care.
Of space, distance, and *those we adore*.

Bombarded with impressions for decades.
We barely noticed the *influx*. But today...

We *seek reassurance*, wide-eyed for guidance.
We're open. You're welcome. *Come this way*.

The new normal doesn't have to *look normal*.
Inform AND arouse. Belt and braces.

Environmental reassess. *Engineer your success*.
Create the most *Splendiferous Spaces*.

BOOTHS

Booths are a fabtastical way to create personal spaces in open plan areas. They'll make superb small meeting areas and double-up as stylish backdrops. Each has a lightweight aluminum frame inside, which collapses down into a carry case. Stretch over the double-sided graphic to make an enormous private place.

If you're off to an exhibition, book a 'space only' stand and take along a fabric booth. Your stand will be built in a matter of minutes. Save the frame, and order new covers separately for different events later on.

HANGING FABRIC

The great thing about fabric is it's durable and washable. And so cost effective to transform walls, or cover up a cordoned-off space.

You don't even need a frame to create a partition. Use a curtain rail and suspend lengths of fabric to make translucent curtains. Flag material is really low cost and has a nice see-through effect. Available in virtually any length in widths of up to 9.5ft, perfect for period properties or big windows. Create some privacy from the outside world and use it to hide ugly windows.

A **MODESTO** 59"(w) x 85"(d) private webex booths have space for a small desk. Avoid distractions whilst on your calls by closing the optional curtain.

GAZEBOS

1 Choose your **SIZE**

We have 3 frame sizes to choose from. Our bestseller is 10 x 10ft, bigger than typical domestic gazebos. Prices shown are for our standard 1.3" square legged gazebo frame. Ideal for regular summer and light winter use. Ask about our heavy duty 1.6" hexagonal leg frames for tougher assignments.

2 Choose your **CANOPY**

Our lowest price is a black unprinted canopy. Upgrade and get the fascia pelmet printed. Or opt for the whole top and pelmet printed on all sides.

3 Then add your **WALLS**

Most people finish their gazebo with walls but side panels can be left open for ventilation. Mix and match full height and half-height panels.
